SUMMARY:

Strong factors:

- **Referrals** are the most important lead source in leveraging leads as maximum leads are converted through this source only irrespective of sales channels (**22.21% of total revenue**).
- **Google ads** are the second most important factor , it is most effective in **retail store sales channel**.(**21.19% of total revenue**)
- **Retail store** is the most important sales channel as it has greatest contribution in total revenue comparatively to sales channels(**Sum of total revenue = 4,73,210.06**)

Weak factors :

- **Social media** is the least performing lead source as it has contributed . (**15.44% of total revenue**)
- Products of **sports** category is least sold among other product categories.
- **Online** sales channel is least performing comparatively to other sales channel.

Recommendations:

- **Social media** and online sales channel can improve by effecting **SEO** and increasing **collaboration** with other brands.
- Maximizing **sports** products sells can be improved by increasing effectivity of **google ads** and **referrals**.
